

SEBANE Seminar: Solar PV & Fire Safety

A Full Day Discussion With Industry Experts

February 29th in Westborough, MA

This full-day seminar explores the issues and solutions of fire safety in the solar PV industry. The session is designed and presented by the Solar Energy Business Association of New England (SEBANE), and features some of the leading professionals in the New England solar industry. This is a can't-miss event for companies impacted by the growth of solar in New England.
