# Planner's Handbook on Energy Efficiency and Climate Change

by Clay Mitchell, Town of Epping  
And Julia Dundorf, NH Carbon Challenge

## Epping project highlights:

- New energy efficient windows.
- New insulation in attic and roof.
- New thermostats.
- New 2-unit cogeneration system (above).

In addition to a 1 kwh solar array, this proposed (not shown) system is set to reduce carbon emissions by over 60% and SO<sub>x</sub> and NO<sub>x</sub> emissions by over 90% and reduce energy costs by 35%.
